

## Cyclops P-mount KTM 790 & 890

*Disclaimer: Read instructions completely before installation of the product. We assume you possess the expertise and relevant tools to work on your machine. We also assume you have the OEM/Stock owner's manual or technical service manual for your machine. If you do not possess the skills, knowledge, or tools necessary to perform the installation of electrical and/or aftermarket parts, please see a qualified service provider.*

The Cyclops P-mount is designed to specifically fit the 18mm bar on the KTM 790 & 890 to mount the Cyclops Aurora OR Aurora DRL lights. Cyclops is not responsible for damage to other manufacturers lights or auxiliary equipment that the user attaches to the P-mounts. The P-mount is specifically designed for its intended location only and is not tested on any other location which may receive more impact or vibration.

**WARNING:** Do not overtighten the 2.5mm hex head screw

- Use a cross pattern when tightening the four (4) hex screws until snug
- The mount is designed to fold over/inward under impact but not move from riding vibration
